A HOME FOR \$1,200.

n Neat and Comfortable II Was Designed and Built. right, 1862, by American Press As-tion.]

A friend entied upon me not long sines and stated that he wished to build a small house in the suburbs of New York. "We shall use the partor as a sitting room also,

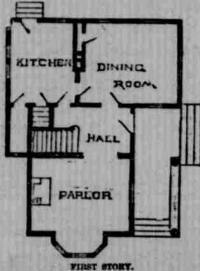

PRONT ELEVATION.

and shall require but three rooms beside the hall, pantry and closets in the first story," said ha "In the second story I

must have three rooms, with a wardrobe closet for each. I own a lot upon which there is a large pile of field stone, which you may be able to use in the foundation. It is and look over the grounds and make me sketches of what you can do for \$1,200."

A visit to the grounds revealed the fact that the lot was in excellent condition and favorably situated with reference to securing and delivering building materials. After taking necessary measurements the sketches here given were prepared and immediately adopted.

You may enter the house directly from the front or side steps of the veranda and pass into the hall which separates the parlor and dining room. This hall may be thrown into an alcove of the former by means of the sliding door, as shown. The parlor is lighted by a large bay window in the front, which is an attractive feature of both the exterior and interior of the house. An open fireplace is another good feature of this room.

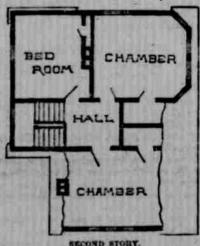

From the hall you pass directly into the fining room or kitchen. The pantry is placed under the landing of the stairs, with the door to the cellar stairs adjoining it. The dining room is provided with a small china closet, with shelves in the

The rooms in the second story correspond in dimensions and arrangement to the rooms in the first story.

The building above the foundation is balloon framed, with the side walls sheathed and covered with waterproof pa-per and clapboarded with 6-inch white pine siding. The roofs and gables are pine siding. The roofs and gables are sheathed and papered in the same manner, and shingled with white pine shingles. The kitchen is finished in North Carolina pine. The parlor hall and dining room are finished with California redwood, varnished two coats. The doors are all of white pine, stained to imitate the color of redwood.

The recodwork in the second story is a

The woodwork in the second story is o white pine, painted two coats.

SECOND STORY.

The kitchen is provided with a 16x34 cast fron sink, portable single oven range and alogallon galvanized iron boiler. Waste from the kitchen sink is conducted to a cesspool in the rear of the lot. The bathcaspool in the rear of the lot. The bathroom is omitted from this plan on account
of expense, but a bathroom could be arranged in the second story over the main
hail, where the two wardrobe closets are
shown, or a small extension on the first
story could be made in the rear. The extra expense of the plumbing work would be about \$250. RAYMOND PRELPS.

PECK'S DRUG STORE

MARSHMALLOW SOAP

This soap is manufactured by Soion Palmer, New York. It is not made of tallow, but of Freuch pounde. These poundes are used it making Falmer's extracts for the handker chiefs. After the oder is washed from them by means of spirits, the residue pounde is manufactured into soap. Of course the supply of pounde is limited, and the output of the apsensit; but the quality is the best of any soap in the market, because the poundes are composed of the fluest materials and are used for extracting the oder from the flowers. Each cake weighs five ounces. The sude are free from the alkaline nature so injurious to tender hands and faces. We have laid it branded Marshmallow, to distinguish it from interior soaps. It caunot be purchased in the dry goods stores, as the trade-mark "Marshmallow," by mutual agreement, belongs to Fees Bros., and we decline to sell it at wholeasies. Try a bex of the Marshmallow Scap and decide upon its merits. See for three cakes.
